MIC YUKTI Innovation Challenge (YIC) – 2025 Guidelines

Guidelines for institute:

Nomination:

- Only IIC Institute can nominate recommended **innovation/prototype level** for the MIC YUKTI Innovation Challenge 2025.
- The last date for nomination is **31st May, 2025**.
- Innovations/prototypes that are **submitted** under YUKTI Innovation Repository **and recommended** by verifiers are only eligible for nomination.
- **Maximum 10 innovations** can be nominated be each institute.
- To know how to nominate, please refer Nomination Guidelines (Click here).

Kindly Note:

If Institutions has not created repository yet or not verified the submitted innovations, following actions are needed;

For Registration:

- Institute need to brief the innovators and share the YUKTI Portal link for registration.
- Institute should not create a common user account and submit all the innovation in it.
- Each innovator should submit their innovations from their respective YUKTI portal only (Link- https://yukti.mic.gov.in/registration/new)
- Innovator are encouraged to use their personnel email ID for the account creation on the YUKTI portal for the communication purpose.

For Verification:

- Once the innovators of your institute have submitted their innovation/prototype through their respective YUKTI login, the institute must verify those registrations through IIC Portal (IPR, Innovation & Startup<Innovation &Startup Repository<Registration Details<View & Verify ID or click after login https://iic.mic.gov.in/institute/innovation-repository).
- Once the registration of the innovators are verified, institute should encourage their innovators to ensure they are submitting required details of their Innovation/prototype through their Yukti portal.
- After submission of Innovation/Prototype details, Institution need to assign 3 verifier. Institute can add verifier using Add/Manage Verifier section under Innovation & Startup Repository.
- Once the innovation has verified and marked as recommended, then only the innovations will be listed in the challenges table.
- To know how to verify, please refer the manual (Click here) / refer the YUKTI
